PACP Version 8 reporting is now available directly on the Minicam MCU.

Through the Minicam and PipeLogix partnership, Phoenix Operator for MCU delivers certified inspections without laptops, extra hardware, or complicated workflows.

Why It Matters

- Certified PACP without the laptop or PC
- Fast and simple field workflows
- NASSCO PACP 8 certified output
- Designed for operators

What It Includes

- PACP and NASSCO certified inspections
- Controller-based reporting and export
- No external PC required

Who It Is For

- Municipal teams
- Contractors
- Utilities.
